

Objective

An initiative-taking and meticulous Computer Science graduate with a foundation in programming, Web development, and Data analytics. Proficient in creating efficient, secure, and scalable solutions by applying critical thinking skills, adaptability, and effective time management. Dedicated to continuous learning and delivering efficient, secure, and scalable technology solutions within a collaborative and growth-oriented environment.

Education

Graphic Era Hill University, Bhimtal	2025	
Bachelor of Technology		CGPA: 7.31
St. Thersa Sr. Sec. School, Kathgodam	2021	
Intermediate		CGPA:8.0
St. Thersa Sr. Sec. School, Kathgodam	2019	
High School		CGPA:8.7

Personal Projects

MUMBLE: Live Chat Room with Video & Mic Access

- Developed a secure real-time communication platform using WebRTC with end-to-end encryption and secure signalling.
- Created dynamic, responsive UI and implemented role-based access controls for privacy protection.
- Applied cybersecurity principles including secure RTC, user authentication, and data protection.
- Fully functional in local environment (Visual Studio); deployment to global hosting planned.

Autism Detection System (Behavioural Quiz Web App)

- Built a ReactJS + Flask web app for early autism risk screening via an evidence-based behavioural quiz.
- Designed an automated scoring engine for instant, personalized results.
- Delivered an intuitive UI to improve accessibility for caregivers and educators.
- Operational with active users; ongoing improvements planned for accuracy, scalability, and multilingual support.

Power BI Project: Mobile Sales Dashboard

- Developed an internal Power BI dashboard with interactive visuals and KPIs.
 - Performed data cleaning in Power Query and built custom DAX measures.
 - Designed a clean, intuitive layout with slicers and drill-downs for deeper insights.
- (Dashboard is part of an internal assignment and is not publicly accessible.).

Technical Skills and Interests

- Programming Languages: C, C++, Python, ReactJS
- Web Technologies: HTML, CSS, JavaScript, PHP, REST APIs, Flask
- Database and Analytics: SQL, Data Visualization, Power BI, Data Analysis, Excel, Google Spreadsheet
- Developer Tools: VS Code, Wix Studio
- Core Interests: Web Development, Data Analytics
- Soft Skills: Problem Solving, Teamwork, Adaptability, Time Management, Leadership, Prioritization & multitasking

Internship & Experience

Associate Intern & Project Mentor | Cosmic365AI

- Assisted in project development and troubleshooting technical issues.
- Provided technical support and mentoring to junior team members.
- Strengthened skills in problem solving, customer communication, and team collaboration.

Certifications & Achievements

- Gen AI on Cloud: Certified in AI tools and applications.
- Data Analyst Training: Completed training from Trainity platform, gaining key data analysis skills.
- Data Analytics and Visualization Job Simulation – Accenture (via Forage)
- Event Leadership — Organized technical events in college, highlighting initiative and teamwork.
- AWS Cloud Quest: Cloud Practitioner - Training Badge
